Subject: Embarcadero Plaza - Slide Deck Comments

Hi All,

Our latest comments were added to the Bluebeam session as a separate file. Aaron will review with you all on Monday.

I understand some comments may have already been considered and would be talked about verbally in the presentation versus shown graphically. Not everything needs to be shown that will be said, though last time over 90% of survey takers didn't attend the meeting, so we do want the slide deck to be understood on its own. As you know, sometimes it's helpful to show information and sometimes it ends up leading to confusion when folks aren't there to get the whole story and make assumptions.

Our biggest unknown is the community engagement piece. We made some suggestions, and we can discuss further when I return as I am OOO until Thursday morning.

In addition, I just got some drawings for Sue Bierman Park I wanted to share your way. Reference drawings indicate location of existing freeway footings.
They are in the folder here:
Sue Bierman and Ferry Park Improvements_BOLA
